

Make an **IMPACT**

We have a brand new concept in advertising that is unlike anything currently available in Southeast Texas! Your company can be one of the first businesses in this area to take advantage and get on board now. This is an extraordinary concept that is perfect for unique image advertising in a sleek, three-dimensional format.

Appearance is crucial when it comes to regulated environments. That's why many of the older, bulkier news racks are not allowed in places like luxury hotel lobbies, shopping malls or in front of restaurants, but with these new coin-op machines, we will be right in front of your consumer with your company name and image.

The Examiner will provide:
