

2007 IMPACT Vinyl Wrap Worksheet

Vinyl Wrap Template on Web

Please download the Impact vinyl wrap template from the Bellatrix Web site. The template is a zipped **Photoshop** document. Also download **Example.pdf**. This is a small file that shows an example of the layout of the artwork for clarification. The template file is **45" X 56"**. The file resolution is **200 dpi**. The artwork should go all of the way to the edges of the file for bleed. **Do not make the file larger or smaller in dimension**. The artwork should extend 1" above the **top outline** of the rack (on the template.)

If you decide to do a back panel, it needs to be 22.75" Wide by 45.5" High. If the back panel lines up with the sides, match it from the bottom. The front panel wraps around the back with 1/2 inch overlap on the left and right sides. The back panel is positioned on top of the 1/2 inch overlap. There is not a template for the back side but you really don't need one.

2007 IMPACT Vinyl Wrap Worksheet

For best results, the file should be CMYK. We request a layered Photoshop (.psd) document but can accept other formats if necessary. If not submitting a Photoshop document, please call to verify that we are able to accept the format you wish to use. On the template, the black dots and square are the keyswitches, coin return button and coin return slot. These areas are cut out or covered on the wrap. The gray area is the vault. This area is printed but is not attached to the rest of the wrap for removal of the vault so it is best if there is no lettering in this area. There is also a Keyswitch in the center of the vault that is cut out. Please view the artwork at full size to make sure that the resolution is what you want. Delete or turn off the template layer when finished with the layout.

File Delivery

You can send the artwork on CD or DVD to:

**Bellatrix Systems, Inc.
Attention: Dana Lamp
1015 SW Emkay Drive
Bend OR 97702**

You can also zip it and post it on our ftp site if there will be only one design at:

[FTP://www.empnet.com](ftp://www.empnet.com).

Note: If there is more than one design please send a CD or DVD.

In addition, please send two printed copies of each design for color comparison and correction. If there are solid color bands on the design, please state the PMS coated color. Please contact Dana Lamp or Brian Hamlin in the Bellatrix Technical Support department if you need additional information or if you have any questions at 800-451-9753
